PROVISIONAL ELECTION OF SPECIES

COMMISSIONER FOR PATENTS ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Election of Species requirement dated March 14, 2006, Applicants provisionally elect, with traverse, Species 1 (Fig. 1) corresponding to Claims 1-7 and 10.

Applicants respectfully traverse the election requirement.

MPEP § 806.04(f) requires:

Claims to be restricted to different species must be mutually exclusive...

The outstanding Official Action fails to address in any way whether the pending claims recite mutually exclusive characteristics . . .

Finally, MPEP § 803 states:

MPEP § 803

... If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

The claims of the present invention would appear to be part of an overlapping search area.

Application No. 10/750,815 Reply to Office Action of March 14, 2006

Accordingly, Applicants also respectfully traverse the outstanding Election requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the Examiner.

In this particular case, since Applicants are at a loss as to the basis of the Election Requirement, in view of the fact that the Requirement does not state any analysis on how the species were decided, Applicants respectfully request that the requirement be withdrawn, or at the very least, that a new Official Action be mailed stating the basis for the Election Requirement and remedying the deficiencies above-noted, so that Applicants can then appropriately respond on the merits of the requirement.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND, MAIER & NEUSTADT, P.C.
